CARDIOVASCULAR
LIFE SUPPORT

PROVIDER MANUAL

Part 1
Overview of ACLS 4

Introduction 1

Course Description and Goal	1
Course Objectives	1
Course Design	2
Course Prerequisites and Preparation	2
Course Materials	3
Course Completion Requirements	5
Advanced Cardiovascular Life Support	5
Continuous Quality Improvement	6

Systems of Care 7

Cardiac Arrest and Post-Cardiac Arrest Systems of Care	7
STEMI Systems of Care	13
Stroke Systems of Care	14

Systematic Approach 15

BLS Assessment	17
Primary Assessment	20
Secondary Assessment	22
References	24

Part 2
Preventing Arrest 27

Recognition: Signs of Clinical Deterioration 27

Rapid Response	27
Implementing a Rapid Response System	28

Acute Coronary Syndromes 29

Goals for ACS Patients	29
OHCA Response	30
Pathophysiology of ACS	30
Managing ACS: The Acute Coronary Syndromes Algorithm	33
Symptoms Suggestive of Ischemia or Infarction	34
EMS Assessment, Care, and Hospital Preparation	35

Immediate ED Assessment and Treatment	37
Classifying Patients by ST-Segment Deviation	39
STEMI	40
Acute Stroke	44
Overview	44
Major Types of Stroke	45
Approach to Stroke Care	45
Goals of Stroke Care	46
Critical Time Periods	47
Application of the Adult Suspected Stroke Algorithm	50
Stroke Centers and Stroke Units	53
Immediate General and Neurologic Assessment	56
Fibrinolytic Therapy	59
Endovascular Therapy	63
Begin General Stroke Care	64
Bradycardia	66
Overview	66
Symptomatic Bradycardia	68
Managing Bradycardia: The Bradycardia Algorithm	68
Tachycardia: Stable and Unstable	75
Overview	75
Approach to Unstable Tachycardia	76
Managing Unstable Tachycardia: The Adult Tachycardia With a Pulse Algorithm	78
Applying the Adult Tachycardia With a Pulse Algorithm to Unstable Patients	79
Cardioversion	81
Synchronized Cardioversion	82
Stable Tachycardias	84
Approach to Stable Tachycardia	85
Managing Stable Tachycardia: The Adult Tachycardia With a Pulse Algorithm	86
Applying the Adult Tachycardia With a Pulse Algorithm to Stable Patients	86
References	89

Part 3	
High-Performance Teams	91
<hr/>	
High-Performance Team Roles and Dynamics	93
Roles in a High-Performance Team	93
Elements of Effective Team Dynamics as Part of a High-Performance Team	95
Respiratory Arrest	100
Overview	100
Normal and Abnormal Breathing	100
Identifying Respiratory Problems by Severity	100
BLS Assessment	102
Primary Assessment	102
Managing Respiratory Arrest	103
Giving Supplemental Oxygen	103
Opening the Airway	103
Providing Basic Ventilation	105
Basic Airway Adjuncts: OPA	106
Basic Airway Adjuncts: NPA	109
Suctioning	111
Using Quantitative Waveform Capnography With a Bag-Mask Device	112
Pulse Oximetry	112
Providing Ventilation With an Advanced Airway	112
Precautions for Trauma Patients	113
Cardiac Arrest: VF/pVT	115
Overview	115
Managing VF/pVT: The Adult Cardiac Arrest Algorithm	116
Applying the Adult Cardiac Arrest Algorithm: VF/pVT Pathway	118
Physiologic Monitoring During CPR	125
Routes of Access for Drugs	128
Ultrasound for VF/pVT/Asystole/PEA	129
Return of Spontaneous Circulation	129
Cardiac Arrest: PEA and Asystole	130
Overview	130
Description of PEA	130
Approach to Asystole	131
Managing Asystole/PEA: The Adult Cardiac Arrest Algorithm	132
Patients With DNAR Orders	135
Terminating Resuscitative Efforts	135

Cardiac Arrest: Selected Special Situations	138
Treating VF/pVT in Accidental Hypothermia	138
Respiratory or Cardiac Arrest Associated With Opioid Overdose	138
ECPR (for VF/pVT/Asystole/PEA)	139
Ventricular Assist Devices	140
Cardiac Arrest Associated With Pregnancy	144
Post- Cardiac Arrest Care	150
Overview	150
Multiple System Approach to Post-Cardiac Arrest Care	151
Managing Post-Cardiac Arrest Care: The Adult Post-Cardiac Arrest Care Algorithm	152
Application of the Adult Post-Cardiac Arrest Care Algorithm	154
Other Postresuscitation Care	158
Neuroprognostication	158
References	159

Appendix

160

Testing Checklists and Learning Station Checklists	165
Adult High-Quality BLS Skills Testing Checklist	166
Airway Management Skills Testing Checklist	167
Megacode Testing Checklist: Scenarios 1/3/8	168
Megacode Testing Checklist: Scenarios 2/5	169
Megacode Testing Checklist: Scenarios 4/7/10	170
Megacode Testing Checklist: Scenarios 6/11	171
Megacode Testing Checklist: Scenario 9	172
Megacode Testing Checklist: Scenario 12	173
Adult Cardiac Arrest Learning Station Checklist (VF/pVT)	174
Adult Cardiac Arrest Learning Station Checklist (Asystole/PEA)	175
Adult Bradycardia Learning Station Checklist	176
Adult Tachycardia With a Pulse Learning Station Checklist	177
Adult Post-Cardiac Arrest Care Learning Station Checklist	178
Adult Cardiac Arrest Learning Station Checklist (VF/pVT/Asystole/PEA)	179
Cardiac Arrest in Pregnancy In-Hospital ACLS Learning Station Checklist	180
Adult Ventricular Assist Device Learning Station Checklist	181
ACLS Pharmacology Summary Table	182
Science Summary Table	185
Glossary	186
