BASIC LIFE SUPPORT

PROVIDER MANUAL

Part 1	
General Course Concepts	1
<hr/>	
BLS Course Objectives	1
Course Description	2
Completion Requirements	2
Skills Tests	2
Exam	2
Your Approach to a Resuscitation Attempt	3
Personal Protective Equipment	3
The <i>BLS Provider Manual</i>	3
Age Definitions	3
Callout Boxes	3
Review Questions	3
Part 2	
The Chain of Survival	5
<hr/>	
Learning Objectives	5
Overview	5
Chain of Survival Elements	7
Prevention and Preparedness	7
Activating the Emergency Response System	7
High-Quality CPR, Including Early Defibrillation	8
Advanced Resuscitation Interventions	9
Post-Cardiac Arrest Care	9
Recovery	9
Comparison of the In-Hospital and Out-of-Hospital Chains of Survival	9
Key Differences in Adult and Pediatric Chains of Survival	10
Review Questions	11

Part 3	13
BLS for Adults	13
Learning Objectives	13
Basic Framework for CPR	13
High-Performance Rescue Teams	14
Main Components of CPR	14
Adult BLS Algorithm for Healthcare Providers	14
High-Quality CPR Skills: Adults	16
Assess for Breathing and a Pulse	16
Perform High-Quality Chest Compressions	18
Position Victim	19
Compression-to-Ventilation Ratio	19
Compression Rate	19
Compression Depth	19
Chest Recoil	19
Interruptions in Chest Compressions	19
Chest Compression Technique	19
Alternate Technique for Chest Compressions	21
Compressions for a Pregnant Woman	21
Give Breaths	22
Opening the Airway	22
Head Tilt-Chin Lift	22
Jaw Thrust	23
Barrier Devices for Giving Breaths	23
Pocket Masks	24
Bag-Mask Devices	25
Bag-Mask Ventilation Technique (1 Rescuer)	26
Bag-Mask Ventilation Technique (2 or More Rescuers)	27
Ventilation for a Victim With a Stoma or Tracheostomy Tube	28
Adult 2-Rescuer BLS	28
Team Roles and Duties for 2 or More Rescuers	29
Effective Team Performance to Minimize Interruptions in Compressions	30
What Is a CPR Coach?	31
Review Questions	31

AED Use for Victims Younger Than 8 Years of Age	61
AED Use for Infants	62
Review Questions	62

Part 8

Alternate Ventilation Techniques 63

Learning Objectives	63
CPR and Breaths With an Advanced Airway	63
Rescue Breathing	64
How to Provide Rescue Breathing for Adults, Infants, and Children	64
When to Switch From Only Rescue Breathing to CPR in an Infant or a Child	64
Techniques for Giving Breaths Without a Barrier Device	65
Mouth-to-Mouth Breathing for Adults and Children	65
Breathing Techniques for Infants	66
Mouth-to-Mouth-and-Nose Technique	66
Mouth-to-Mouth Technique	66
Caution: Risk of Gastric Inflation	67
Review Questions	67

Part 9

Opioid-Associated Life-Threatening Emergencies 69

Learning Objectives	69
What Are Opioids?	69
Problematic Opioid Use	69
Identifying an Opioid Emergency	70
Scene Assessment	70
Signs of an Opioid Overdose	70
Antidote to Opioid Overdose: Naloxone	70
Naloxone Autoinjector	70
Intranasal Naloxone	70
Opioid-Associated Life-Threatening Emergency Response Sequence	71
Review Questions	72

Part 4
Automated External Defibrillator for Adults and Children 8 Years of Age and Older **33**

Learning Objectives	33
Defibrillation	33
Early Defibrillation	33
Public Access Defibrillation Programs	34
AED Arrival	34
Using the AED	34
Know Your AED	34
Operating an AED: Universal Steps	35
Minimize Time Between Last Compression and Shock Delivery	37
Do Not Delay High-Quality CPR After AED Use	37
Child AED Pads	39
Special Circumstances	40
Hairy Chest	40
Presence of Water or Other Liquids	40
Implanted Defibrillators and Pacemakers	40
Transdermal Medication Patches	40
Pregnant Woman	41
Clothing and Jewelry	41
Review Questions	41

Part 5
Team Dynamics **43**

Learning Objectives	43
Elements of Effective Team Dynamics	43
Roles and Responsibilities	43
Assign Roles and Responsibilities	43
Know Your Limitations	44
Offer Constructive Intervention	44
Communication	44
Share Knowledge	44
Summarize and Reevaluate	45
Use Closed-Loop Communication	45
Give Clear Messages	45
Show Mutual Respect	45

Coaching and Debriefing	45
Review Questions	46

Part 6**BLS for Infants and Children** 47

Learning Objectives	47
Pediatric BLS Algorithm for Healthcare Providers—Single Rescuer	47
High-Quality CPR Skills: Infants and Children	50
Assess for Breathing and a Pulse	50
Breathing	50
Pulse	50
Signs of Poor Perfusion	51
Perform High-Quality Chest Compressions	52
Compression-to-Ventilation Ratio	52
Compression Rate	52
Compression Depth	52
Chest Recoil	52
Interruptions in Chest Compressions	52
Chest Compression Techniques	52
Give Breaths	55
Breaths Are Important for Infants and Children in Cardiac Arrest	55
Opening the Airway	55
Ventilation With a Barrier Device	55
Pediatric BLS Algorithm for Healthcare Providers— 2 or More Rescuers	56
Infant and Child 2-Rescuer BLS	57
Review Questions	58

Part 7**Automated External Defibrillator for Infants and
Children Younger Than 8 Years of Age** 59

Learning Objectives	59
Know Your AED	59
Pediatric- Capable AEDs for Reduced Shock Doses	59
Choosing and Placing the AED Pads	60
AED Use for Victims 8 Years of Age and Older	61

AED Use for Victims Younger Than 8 Years of Age	61
AED Use for Infants	62
Review Questions	62

Part 8

Alternate Ventilation Techniques 63

Learning Objectives	63
CPR and Breaths With an Advanced Airway	63
Rescue Breathing	64
How to Provide Rescue Breathing for Adults, Infants, and Children	64
When to Switch From Only Rescue Breathing to CPR in an Infant or a Child	64
Techniques for Giving Breaths Without a Barrier Device	65
Mouth-to-Mouth Breathing for Adults and Children	65
Breathing Techniques for Infants	66
Mouth-to-Mouth-and-Nose Technique	66
Mouth-to-Mouth Technique	66
Caution: Risk of Gastric Inflation	67
Review Questions	67

Part 9

Opioid-Associated Life-Threatening Emergencies 69

Learning Objectives	69
What Are Opioids?	69
Problematic Opioid Use	69
Identifying an Opioid Emergency	70
Scene Assessment	70
Signs of an Opioid Overdose	70
Antidote to Opioid Overdose: Naloxone	70
Naloxone Autoinjector	70
Intranasal Naloxone	70
Opioid-Associated Life-Threatening Emergency Response Sequence	71
Review Questions	72

Part 10
Other Life-Threatening Emergencies 73

Learning Objectives	73
Heart Attack	73
Signs of Heart Attack	73
Heart Attack and Sudden Cardiac Arrest	75
Obstacles to Lifesaving Treatment	75
Actions to Help a Heart Attack Victim	75
System of Care	75
Stroke	76
Warning Signs of Stroke	76
Other Signs of Stroke	77
Actions to Help a Stroke Victim	77
System of Care	77
Drowning	78
Rescue Actions Based on Cause of Cardiac Arrest	78
Actions to Help a Victim of Cardiac Arrest Due to Drowning	78
Vomiting During Resuscitation	79
Transport	79
Anaphylaxis	79
Mild Allergic Reaction	79
Severe Allergic Reaction	80
Review Questions	82

Part 11
Choking Relief for Adults, Children, and Infants 85

Learning Objectives	85
Signs of Choking	85
Choking Relief in a Responsive Adult or Child	87
Abdominal Thrusts	87
Abdominal Thrusts With the Victim Standing or Sitting	87
Choking Relief in Pregnant and Obese Victims	88
Choking Relief in an Unresponsive Adult or Child	88
Giving Effective Breaths When There Is an Airway Obstruction	89
Actions After Choking Relief	89

Choking Relief in Infants	89
Responsive Infant	89
Unresponsive Infant	90
Review Questions	91
Appendix	93
<hr/>	
Adult 1-Rescuer BLS Sequence	94
Adult 2-Rescuer BLS Sequence	95
Cardiac Arrest in Pregnancy: Out-of-Hospital BLS Considerations	96
Opioid-Associated Emergency for Healthcare Providers Algorithm and Sequence	98
Infant and Child 1-Rescuer BLS Sequence	100
Infant and Child 2-Rescuer BLS Sequence	101
Summary of High-Quality CPR Components for BLS Providers	102
Adult CPR and AED Skills Testing Checklist	103
Adult CPR and AED Skills Testing Critical Skills Descriptors	104
Infant CPR Skills Testing Checklist	105
Infant CPR Skills Testing Critical Skills Descriptors	107
Glossary	108
Answers to Review Questions	110
Recommended Reading	110

Abbreviations

Abbreviation	Definition
AED	automated external defibrillator
AP	anteroposterior
BLS	Basic Life Support
CCF	chest compression fraction
CPR	cardiopulmonary resuscitation
ECG	electrocardiogram
ED	emergency department
EMS	emergency medical services
LUD	lateral uterine displacement
PAD	public access defibrillation
PPE	personal protective equipment
pVT	pulseless ventricular tachycardia
ROSC	return of spontaneous circulation
T-CPR	telecommunicator-assisted CPR
