8. Suggestions for Improvement

Please provide any additional comments or suggestions on how we can improve our services:

61 responses

Nil

*Make it sure that they get a break at least once in a month other than public holidays. So I consider monthly off on second Saturdays is a must. **In this present situation, providing washing machine in the hostel for the students will be a great help to save time and to maintain hygiene. ***Uniform for girls to be changed to pants, shirt and jacket instead of churidhar.

Need regular update in overall organisation procedures

Classrooms can be air conditioned as it was very difficult for them to be in classroom last summer due to severe heat

Its already good

The classrooms provided are not very good as it doesn't have enough light, air circulation and also have water clogs during rainy days such that students have to change their classrooms from time to time.

Nothing

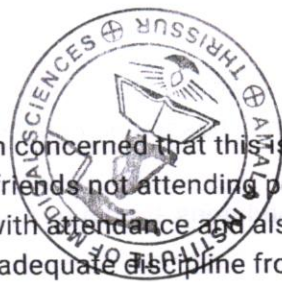

Please improve the college facilities and provide air conditioners as the weather is worsening.

1. Lecture halls can be provided with aircon as ours is tropical climate. 2. Canteen food quality needs improvement. 3. Hostels can be provided with washing machines that student inmates can use.

Be in line with All India Institute of Medical Science & achieve it in time set by your team.

Saturday classes are hectic. Please consider that

I believe postings are very important for medical studies, and I am concerned that this is not adequately managed for this batch. My daughter talks about her friends not attending postings and because they have to work as a batch, she is also impacted with attendance and also lack of experience from the postings. My humble request is to ensure adequate discipline from faculty and students for postings. There are sessions where teachers also do not give adequate attention to the students during these postings.

Access to library facilities must be increased for girls

1. No action has been taken regarding the clinical and lab classes missed during the SAY exams.
2. Access to the library is not as convenient as it should be.
3. It would be highly appreciated if the PTWA meeting could be scheduled at the beginning of the academic year, so that parents who are abroad can plan their vacations and book tickets well in advance.
4. A plan for students who are lagging in any subjects has not been considered

Please check on the infrastructure of lecture halls.lecture halls in the basement filled with water and covered by fungus leads to infections,which should be checked and take necessary steps to maintain that.Thank you

Please make arrangements for collecting courier packets/postal documents at college premises.

Install ACs in classroom , washrooms should be kept with basic amenities and kept clean

Constant classes alone will not help the students to excel in academics. You need to give them the time to process and digest the subject.

We are well aware of other colleges where they give students a day off and yet being able to complete the syllabus way ahead of schedule.

Bombarding students with lectures and name sake SDL and SGD is not going to help them strive towards success.

The time table clearly marks a period for yoga and sports and I have not heard my ward say even once that such classes have been conducted. AETCOM and lectures alone will not suffice these students to be good doctors and help them in their future endeavors.

Pls provide better facilities for our kids they are constantly complaining about their classrooms and toilets

Nil

- 1.Hostel is very bad try to improve the quality especially the washroom
- 2.lecture hall has to be improved

Hostel conditions should be improved

Please provide an AC in the classrooms
Make the library resources more available to the female students as their curfew time is only till 7pm they are not able to fully utilise it

Class room should be air conditioned

Classrooms could be made air conditioned as it is very hot during summer. Also the bathrooms in hostel needs a facelift

could you please give leave to the students atleast altrenative Saturdays

All good

Special fees are taken from students every year but students are forced to pay lot of money again on record books..why is it so

..

AC

Satisfied with the curriculum and related services provided by the institution.

All the services are satisfactory.

Please provide good infrastructures for classroom and hostel. Teaching quality can be improved.

provide ac classroom's for students

Please make sure the classes are cleaned properly, lately I have heard from my child that there was fungus on their desks and it was not properly cleaned for weeks and there was smell and had to sit in the same class even though other lecture halls were free ,please make sure such instances dont happen and there was also paint peeling off the ceiling

Please discourage using mobile phones for academic purposes

Improvement in mess food, A/C, improvement of classroom cleanliness, increase in library timing.

Hostel mess service is very poor . Menu has not been changed for the last one year.kindly consider this

- 1) Kindly consider introducing compulsory study hours of minimum 2 hours during which students should not have access to electronic devices
- 2) Kindly consider introducing mechanised laundry services for hostelites
- 3) Kindly consider introducing more nutritious food in the hostel menu for vegetarian students
- 4) Kindly consider introducing extra sessions for students to help them learn social and survival skills.

Thank you very much 🙏

Give more support for my students progress.

Make AC in the class room

If possible, air condition during summer

Hostel food should be clean, healthy and nutritious.

The gobi muncharian is not of standards and is filled with food coloring, food should include protein as well, the food should include other vegetables and pulses such as daal, peas etc.

The mess fee has increased in double since the joining of mess, it was 2000 intially and 4500 now, i have no complains about the price but the food provided has been detriorating in quality over time.

They should be given atleast one fruit per day. Atleast maybe some pieces of fruit.

- 1) Monthly off on second Saturdays will be a good refresher to the students
- 2) Washing machine is highly recommended in the hostel considering their volume of study

Please provide AC in classroom

Hostel premises are foul smelling and suffocating during rainy season.

There is a need of air conditioning in the classrooms which the students and staff have been complaining for long time and no action has been taken

And from my wards opinion the hostel facilities are are not satisfactory and the pathetic condition of the bathrooms and toilets should be taken into consideration

Provide AC in classroom

Please provide an AC for the students in the classrooms

Make the library resources more available for the girl students as the curfew time is only till

7pm they are not able to utilise it properly

Renewation of lecture hall is highly recommended.

1) Parents Faculty interaction is very poor and needs to improve especially with outstation parents. 2) Online parents faculty meetings have to be arranged automatically for outstation parents without requesting. 3) Current girls hostel is very inside the campus with very poor street lighting which makes it very insecure, also for the recent rains the toilet drainage had blocked and overflowed causing bad smell and unhygienic conditions. 4) Poor lighting and inadequate number of fans provided inside the hostel. 5) No washing machine facility inside the hostel which is a strain on the hosteliars as they have to waste time physically washing clothes and drying them. 6) Quality of mess food has to improve drastically.

Faculties should be a little more accessible to Parents. Marks of all small tests should be sent to Parents

Laundry facility in hostel must be improved. Paid facility is acceptable.

Hostel room is congested.

Love others

*****Thank you for your time and feedback. Your input is invaluable in helping us improve the experience for both students and parents.*****
