

DECLARATION

We declare with immense pride that the Amala Institute of Medical Sciences provides **exemplary hostel facilities** that fully comply with and even surpass the stringent norms set by KUHS. Our commitment is to ensure a safe, comfortable, and conducive living environment for all our students, enabling them to focus on their academic pursuits without any concerns.

1. Comprehensive and Well-Maintained Facilities: Our campus features separate, secure, and well-maintained hostels for men and women. Each floor is meticulously cared for, with dedicated housekeeping services and at least one sweeper assigned per floor to ensure cleanliness is a top priority. We guarantee an uninterrupted supply of essential services:

- **Continuous Water and Electricity.**
- **Water Safety:** Water quality is ensured through a robust purification system and is subject to periodic testing to meet the highest safety standards.
- **Power Backup:** An alternate system of powerful generators is in place to guarantee a seamless power supply, even during unexpected outages.

2. Health, Wellness, and Recreation: The well-being of our students is paramount. We have dedicated facilities to address their health, nutritional, and recreational needs:

- **Sick Rooms:** We have designated sick rooms for hostel inmates, complete with attached washrooms, comfortable furniture, and access to a nutritious, medically appropriate diet as needed.
- **Dining Facilities:** The student dining hall is spacious with ample seating, ensuring a comfortable dining experience for all. We prioritize hygiene, with a planned menu system offering nutritious and hygienic food. A safe and clean drinking water facility is readily available.
- **Quality Control:** To maintain the highest standards, food and water quality are regularly checked by a health inspector. Additionally, the health of our food handlers is monitored through periodic medical checkups conducted by the Community Medicine department.
- **Recreation:** Students have access to a variety of recreational amenities, including a TV room, indoor games like table tennis and carroms, and a dedicated prayer room. A visitors' room is also available for meeting guests.

3. Effective Management and Discipline: Our hostels are managed by a dedicated and efficient **Hostel Management Committee** that oversees all operations and ensures the well-being of the residents. We maintain a disciplined environment through well-defined rules and regulations. Daily roll calls are conducted to ensure attendance, and a complaint register is maintained to facilitate open communication and quick resolution of any feedback or issues.
