2. Kerala Christian Professional College Managements' Federation [KCPCMF] representing four medical colleges, namely, (i) Jubilee Mission Medical College and Research Centre, (ii) Malankara Orthodox Syrian Church Medical College, (iii) Amala Institute of Medical Sciences & (iv) Pushpagiri Institute of Medical Sciences which are the members of that Association submitted letters on 11.11.2024 and subsequently on various

other days requesting the Committee to regulate the tuition fee, special fee, hostel fee and mess fee of students undergoing MBBS/MD/MS courses during the academic session 2025-26 by revising the existing fee. It was stated by the aforesaid Association of Managements that the member colleges had submitted relevant documents in support of the revision of fee claimed by them.

3. The proposals for fee regulation submitted for the current academic year along with supporting documents were handed over by the Committee to the Member [Chartered Accountant] for his Report. Accordingly, the Member [Chartered Accountant] has submitted his Report before the Committee pointing out deficiencies on the part of the Medical colleges in the fee proposals. On receipt of the aforesaid Report, Committee issued notice to the Medical Colleges directing them to submit additional documents to establish their claim.
4. In pursuance of the aforementioned notice thus issued, aforementioned Medical Colleges submitted letters on 28.06.2025 and subsequently on various other days before the Committee in order to regulate the fee structure for under graduate, postgraduate and super speciality medical courses for the academic year 2025-26. Aforesaid Communication is extracted hereunder for the sake of convenience:

With reference to the above, we would like to bring to your kind attention

that we had earlier submitted a representation vide our letter dated 29/05/2025 requesting the Fee Regulatory Committee to kindly consider a revision of the tuition fee for the academic year 2025-26 by applying either an increase of 5% or the applicable Cost Inflation Index over the previous year tuition fees, whichever is higher. This request was made in order to facilitate a smooth admission process and to avoid confusion among students and parents.

We respectfully submit that in previous years, the Hon'ble Committee had been gracious enough to finalize the fee structure along similar lines, thereby ensuring a timely and hassle-free process.

We would also like to humbly submit that, as part of our original fee proposal dated 12/11/2024, we had already furnished a bifurcated statement of income and expenditure clearly allocated to MBBS, PG, and DM courses. The allocation was prepared based on the last available audited financial statements, and the base for such allocation was explained in the said proposal. Kindly note that such an exercise on provisional figures for the year 2024-25 would be time-consuming.

In view of the above and to avoid procedural complications and delay, we kindly request the Hon'ble Committee to consider our earlier submission and grant approval for the tuition fee for the academic year 2025-26 based on the applicable Cost Inflation Index or a 5% increase over the previous year's fee, whichever is higher, across all categories including NRI and special fees.

5. Committee considered the aforementioned representation of the Medical Colleges in its meeting held on 17.07.2025. Having gone through the request made by the member Medical Colleges, Committee came to the opinion that 5% hike raising the existing fees on the basis of C.P.I would be just and reasonable. It was decided that the Medical Colleges, four in number, could be permitted to charge the revised rate of fees on the students who are the intakes of the academic year 2025-26.

6. The Medical Colleges conducting super speciality courses, except Amala

Institute of Medical Sciences, have submitted that revision of fees in respect of the students of those courses is not required during the present academic session (2025-26 batch). The above submission was considered by the Committee and it was decided that the existing fee will continue for 2025-26 also.

7. While examining the rate of fees for DM Courses in respect of Amala Medical College, it is worth noticing that the fee for DM courses had not been revised in the previous academic years. Therefore, the Committee decided to implement 5% increase as given to other medical courses to Amala Institute of Medical Sciences in the case of DM courses as well.
8. Next aspect that comes up for consideration is the rate of 'Hostel Fees' and 'Mess Charges'. It is common knowledge that fixation/ regulation of Hostel Fees including Mess Charges would depend on the nature of accommodation and various other facilities that are offered to the students and availed or accepted by the students. Similarly, Mess Charges to be collected from the hostel inmates for each month would vary due to changes in the price of commodities. Committee thinks that the act of regulating the Hostel fees and the Mess Charges, at this stage, on the basis of the unilateral claim/statement made by the management is likely

to cause hardship to the hostel inmates and, therefore, it would be just and fair to take the required decision in this respect after hearing the students/ parents who are the office bearers or the representatives of the Parent Teacher Association (PTA).

9. In the result, Committee decide to adjourn the regulatory exercise of Hostel Fees and Mess Charges to be discussed and regulated after hearing the stake holders also. It is ordered accordingly.
10. In the light of the above discussion, Committee allow an increase of 5 % in the annual tuition fee and the special fee for MD/MS and MBBS Courses for the academic year 2025-26. The calculation table of each member Medical College under the KCPCMF are given hereunder:
