## MOODLE

Moodle is an online learning platform used in medical colleges, to facilitate various academic activities. its use for MBBS students and Continuing Medical Education (CME) for doctors. Moodle provides a virtual classroom environment where lectures can be delivered live or through pre-recorded videos. Students can access learning materials, participate in discussions, and collaborate on projects. Moodle has built-in attendance tracking features that allowed educators to mark and monitor student attendance in online classes. This can be done manually or through automated tools that track participation.

The image shows the Moodle login interface. At the top center is the Amala Institute of Medical Sciences logo. Below it are two input fields: 'Username' and 'Password'. To the right of the 'Username' field is a link for 'Forgotten your username or password?'. Below the 'Password' field is a message: 'Cookies must be enabled in your browser' with a small icon. There is a checkbox for 'Remember username' and a 'Log in' button. To the right of the 'Log in' button is a 'Log in as a guest' button. At the bottom, there is a note: 'Some courses may allow guest access'.

The image shows a Moodle dashboard for a user named 'Dr. LATHIKA V.K.'. The dashboard includes a navigation menu on the left with options like 'Dashboard', 'Site home', 'Calendar', 'Private files', 'My courses', and 'moodlecourse'. The main content area is divided into several sections: 'Recently accessed courses' (showing 'No recent courses'), 'Course overview' (with a dropdown menu set to 'All (except removed from view)' and a grid of course cards for MBBS and CME), 'Timeline' (showing 'No upcoming activities due'), 'Private files' (showing 'No files available'), 'Online users' (showing '1 online user (last 5 minutes)'), and 'Latest badges' (showing 'You have no badges to display'). A watermark for 'AMALA INSTITUTE OF MEDICAL SCIENCES' is visible in the bottom right corner of the dashboard area.
