

Report

Adding **one more feather to the cap**, RHTC Vellattanjoor and the **Souhradam Group** were **felicitated by Velur Panchayat** in recognition of their dedicated and sustained contributions to community health and welfare.

The felicitation was awarded in appreciation of the teams' consistent efforts in **patient care**, including timely medical support, follow-up care, and health services for the local population. Special recognition was given to their impactful work in **geriatric care**, where the teams have been actively involved in addressing the health needs of the elderly through regular visits, monitoring, and supportive care.

In addition, the Panchayat acknowledged the wide range of **community-oriented activities** undertaken by RHTC Vellattanjoor and Souhradam, which include health awareness programmes, preventive health initiatives, and outreach activities aimed at improving overall community well-being. These initiatives have significantly strengthened the bond between healthcare providers and the community.

The recognition by Velur Panchayat serves as a strong motivation for the teams to continue their committed service and further enhance healthcare delivery and community engagement in the future.

World AIDS Day Observation

Event Name	World AIDS Day Observation
Date	01.12.2025
Venue	Family Health Centre (FHC), Velur
Organizing Team	RHTC
Activities Conducted	Awareness Rally, Health Awareness Talk, Red Ribbon Thumb Impression Campaign
Resource Person	Dr. Pretty Paulson

World AIDS Day was observed by the **RHTC team** at **Family Health Centre (FHC), Velur** on **01 December 2025** with the aim of creating awareness about HIV/AIDS and promoting prevention and early detection.

As part of the observation, an **awareness rally** was conducted in collaboration with the **FHC team** to spread messages on HIV/AIDS awareness among the public. This was followed by a **health awareness talk by Dr. Pretty**, who explained the modes of transmission, prevention methods, and the importance of reducing stigma related to HIV/AIDS.

A **Red Ribbon Thumb Impression Campaign** was also conducted, where participants showed their support and commitment towards HIV/AIDS awareness and prevention.

The programme was meaningful and effective in spreading awareness and encouraging community participation in the fight against HIV/AIDS.
