Report on Community Medicine awareness programme:

As part of the observance of **World Leprosy Day 2025**, a health education session on Leprosy along with a **general health camp** was organized for **migrant workers** at **Padukkad, Viyyur** on **January 30, 2025**. The initiative was led by **Dr. Sneha Georgy** and **Dr. Athira K R**, both **Senior Residents** from the **Department of Community Medicine, Amala Institute of Medical Sciences (AIMS), Thrissur**.

The programme aimed to raise awareness among migrant workers about **Leprosy – its causes, symptoms, treatment availability, and importance of early diagnosis**, along with promoting **general health and hygiene practices**. Around **25 migrant workers** participated in the session.

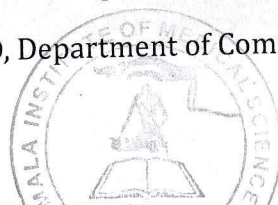

Following the awareness session, a **general health check-up camp** was conducted, wherein the participants were screened for common health issues and were provided with basic medical advice and appropriate referrals wherever necessary.

This event was a part of the department's ongoing efforts to extend **health education and services to vulnerable populations**, thereby contributing to the goals of **early detection, treatment, and stigma reduction related to Leprosy**.
