Respected Father,

A project titled 'A study on association of SNPs with the severity of psoriasis' is being planned to be conducted at Amala Institute of Medical Science. So far, such a study has not been done in India. It is a unique one, which has an impact on understanding the process of Psoriasis and may benefit patients at large.

The budget of the project is around 7 lakhs. Unfortunately, we are unable to get the whole amount from any funding sources. We approached few funding organisations but are not sure if we will receive the funds. However we decided to go ahead with the project. We have offers from IADVL Kerala and one of the PG students has consented to give a part of the amount. We are still trying for the rest, but not sure we will get the amount.

I humbly request you to grant the sufficient amount to do our dream project. Thanking you in advance and anticipating a positive reply.

Dr. S Criton
Professor and HOD,
Department of Dermatology,
Amala Institute of Medical Sciences

To Dr Criton, Head
Happy to support the
Project - kindly make
a Finance plan and
